

MMP 350 Group Midterm Project Evaluation

The main goal of this exercise to help you get your project ready. You should leave the class with a good understanding of where your project meets the requirements, where it doesn't and what you need to do to complete it.

For this exercise you will be in groups of three or four. For 20 minutes you will focus on one project. Then you will move on to the next project. When working with each project:

The project creator will

- Show the theme in the browser (the dashboard should also be open)
- Show the code in an editor
- Ask questions to get help with understanding what you need to do to complete the project.

The other group members will

- Assign the project points for each area. Full points if the area is included, working and has the right template tags, 0 points if the file does not exist, somewhere in the middle if there are issues.
- Give the project creator feedback on the visual design of the project
- Help the project creator fix issues with the project and try to answer questions about the code, WordPress or the requirements.

Your Name _____

Person You're Evaluating _____

Area	Points Possible	Points Given	Area	Points Possible	Points Given
style.css	10		search.php	5	
index.php	10		archive.php	5	
content.php	7		404.php	5	
header.php	7		content-single.php	5	
sidebar.php	7		content-page.php	5	
functions.php	10		2+ Menus	7	
single.php	5		2+ Sidebars/Widgets	7	
page.php	5		Extra Credit	7	
			Total Score		
Comments
